| <p>Semestret generelt (bemærkninger til forberedelse/opstart, studie-/læringsmiljø, studerendes arbejdsindsats, deltagelse i styrings-/semestergruppemøder og semesterevaluering, administration, fysiske rammer m.m.)</p> <p>This is the very last evaluation of sports technology, because the education is being closed down.</p> <p>From my perspective as the coordinator, this last semester went fine, where the students made some great projects in most cases in cooperation with external partners. Moreover, several of the students already find some nice jobs in relevant areas.</p> <p>The supervisors were again from two different departments and faculties. This kind of cooperation aligns very well with the university strategy "Viden for Verden" and is a great opportunity for the students as well. Unfortunately, the economical reality of the HST department makes it very difficult to cooperate between departments and faculties on educations.</p> <p>When reading the report written by DIF (Danmarks Idrætsforbund) from 2022 called "Analyse af sportstechbranchen i Danmark". It is clearly a pity that this education was not allowed to continue. It is a strategic error, which also influences the influx of new students, into the sports science bachelor.
