Forventer du at afslutte uddannelsen/har du afsluttet/ denne sommer?

Hvad er årsagen til, at du ikke forventer at afslutte din uddannelse denne sommer?

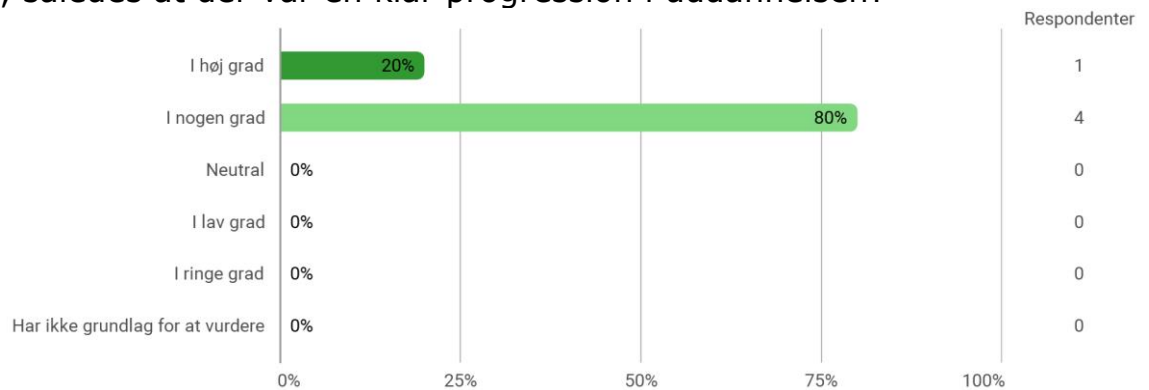

I hvilken grad har uddannelsen levet op til dine forventninger?

Yderligere kommentarer vedr. dine forventninger til uddannelsen?

- I loved that we worked on real-life problems.
- I expected more options for specializations, less epistemological underpinnings and more focus on methodologies. Still, I liked the heavy emphasis on practicality.

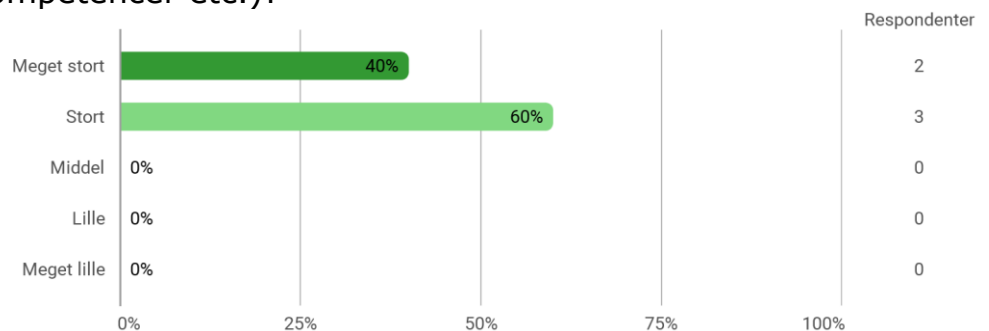

I hvilken grad vurderer du, at uddannelsens moduler/kurser lå i forlængelse af hinanden, således at der var en klar progression i uddannelsen?

Yderligere kommentarer vedr. progressionen i uddannelsen?

- Courses were scarce, and I felt they try to touch upon too many areas. I did not feel that I could use the knowledge I gained in the previous semester to tackle a problem in the next semester.

Hvordan har dit faglige udbytte af hele uddannelsen været (fx. i form af viden, nye forstærkede kompetencer etc.)?

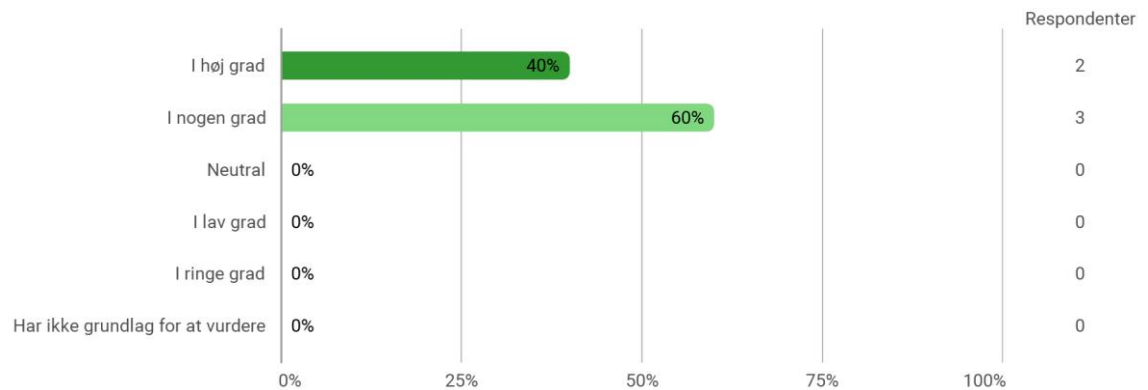

Yderligere kommentarer vedr. dit faglige udbytte af hele uddannelsen?

- I became a much better writer. Then I came to Aalborg University I struggled writing short essays and now I had no problem writing the whole master thesis by myself. Learned a lot about research design.
- I got out many good projects and even publications from my education.

I hvor høj grad var studiet tilrettelagt således, at du kunne opfylde uddannelsens læringsmål (kompetenceprofil)? - Se evt. uddannelsens studieordning: <https://studieordninger.aau.dk/>
