Hvilket valgmodul deltog du i?

Tidsforbrug - Jeg har i gns. pr. uge brugt (inkl. undervisning og kursusforberedelse)

Eget engagement (jeg møder op til undervisning, forbereder mig, læser litteratur) - På en skala fra 1 til 6 (hvor 1 = bedst muligt og 6 = meget ringe) hvordan vil du så beskrive dit eget engagement på kurset?

Kommentarer til dit eget engagement

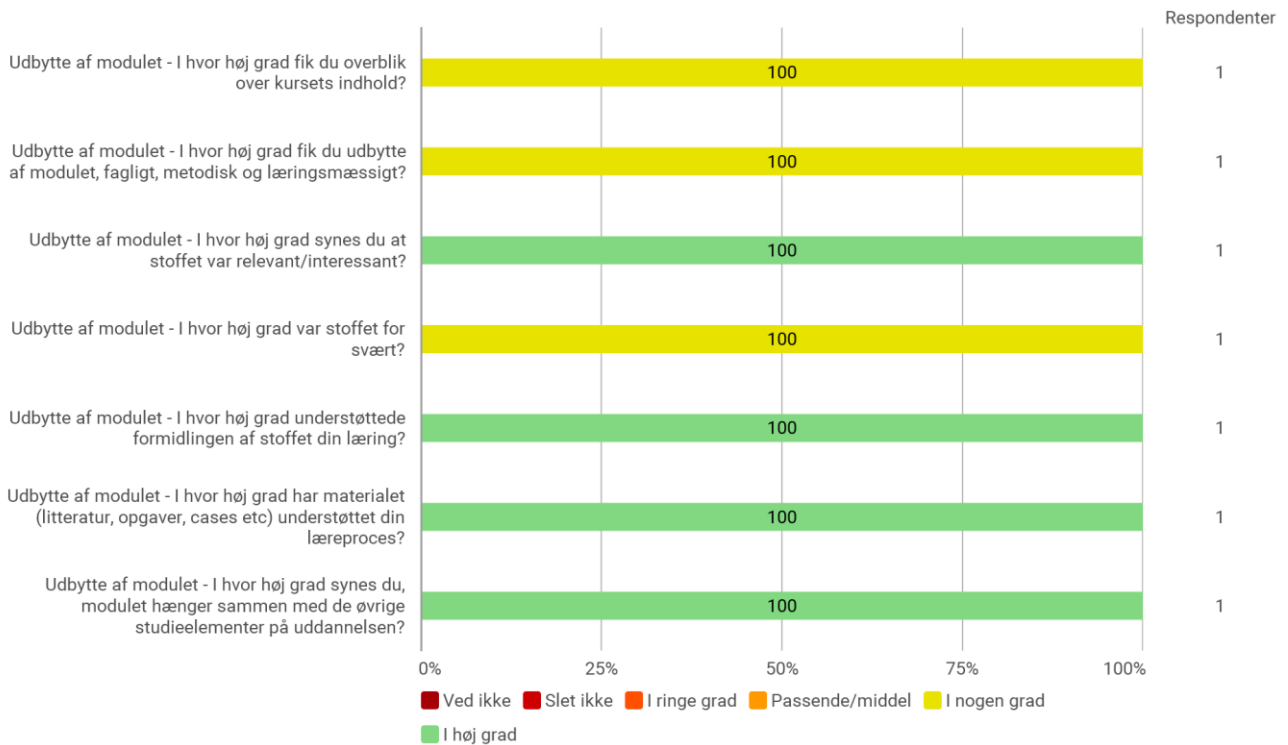

- I have read all the proposed and required literature, watched all the videos, answered all the reading quizzes, written all the required forum posts and given replies to at least 2 other forum posts weekly (as required). Unfortunately, I missed one online lecture (due to work).

Hvilke dele af modulet har du fået mest ud af?

- The readings and watching the videos (primarily), participating in the lectures and replying to other forum posts (secondarily).

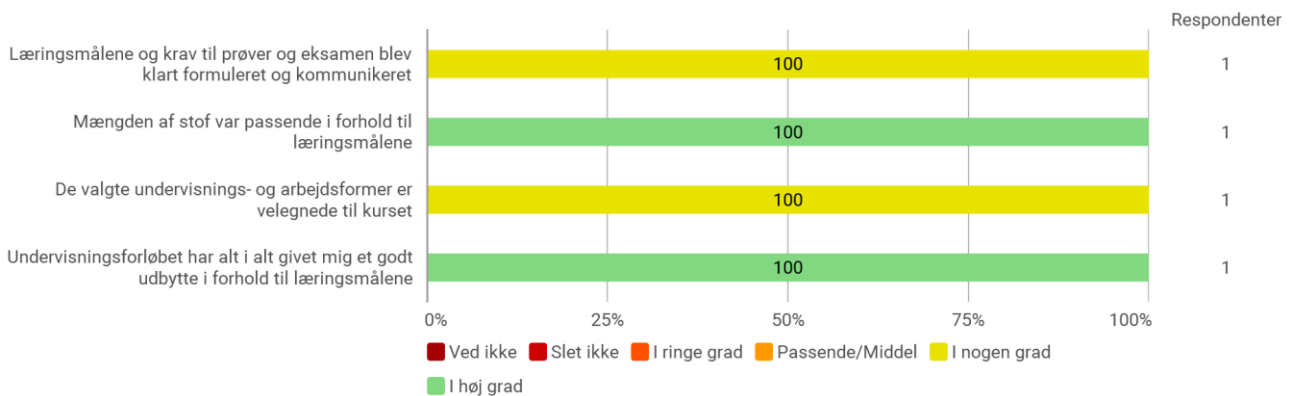

Hvilke dele af modulet har du fået mindst ud af?

- Not really sure there were any less valuable parts.

Forslag til, hvordan modulet kunne blive mere udbytterigt

- It would have been great if the course were to start a bit earlier and end a bit earlier (it has overlapped with 2 exams and with the semester project); this way it would be a bit more rewarding (we could enjoy it more without being pressured by other elements).
