Study board conclusions of the semester and teaching evaluation report

Year: 2023
Campus   Aalborg
Semester   MED7A
Coordinator: Hendrik Knoche
Date: Handled at SB meeting April 3rd, 2024

This document represents the public version of the evaluation of the semester. The document forms together with the semester and teaching evaluation report the basis of any adjustments to the semester's description, planning, execution and/or evaluation of the next iteration of the semester and are used by the coming semester coordinator and semester planning group.

The document also represents the study board's response to the students, teachers, coordinators and other interested parties about possible consequences of conditions that the students of the semester have pointed out.

The public conclusions and recommendations of the semester coordinator

There were problems in terms of noise from other students as the semester's group rooms were close to the kitchen. The students found it difficult to contain and reprimand the other students and sought outside help in the form of posters etc. to remind students that it's a work area.

SUS meetings should be scheduled earlier (not during project crunch time). The students appreciated the timing of the course exams (starting from 9th Jan.).

The electives could help the students more in understanding how to apply the content in their projects.

Conclusion of the study board

The Study Board (MSN) has processed the semester evaluation report and offers the following observations/conclusions:
- 6 out of 12 responding
- The study board is aware of the online elective course challenges
- The graphs are not looking too good
- The same for the self-reported study time, preparation for classes etc.

MSc01 MEDA

MSc01 MEDA - Machine Learning for Media Experiences - I have received the expected benefit from the module

Respondenter

Agree	33% — 2
Partially Agree	33% — 2
