The students wish to be able to book group rooms downtown so they do not have to always meet up here at the campus. The students are in general quite happy with the wide variety of exciting projects that they could choose. Particularly, in this semester group formation went quite smoothly. Some students complained about the environment in FRBG5 114 due to noise and air conditioning. The participation rate in the "semestergruppemøde" was not very high. Two out of four groups showed up and in one case, the meeting was rescheduled due to very low attendance. It seems that students would rather spend their time on their projects rather than providing feedback. The ones who attended the meeting were generally satisfied even though provided a few points which have been already reflected in the minutes of the meetings.

Projektmodul (bemærkninger til forløb af gruppedannelse, forløb af projektgruppearbejde, projektvejledning, sammenhæng mellem projektgruppearbejde og kursusmoduler, statusseminar, eksamen m.m.)

The students were quite happy with the presented projects and no report of complication was received during the last semester.

Kursusmoduler (bemærkninger til kursusmodulers forløb – forelæsninger, caseundervisning, klinik ophold og kliniske øvelser, sammenhæng/progression i/mellem forløb, forberedelse/opgaveløsning/øvelser, eksamen m.m.)

The course evaluations are in general quite positive. The negative evaluation in all cases are less than 13% (2 out of 18 students). The students wish to receive some information about the exam already at the beginning of the semester. Even though this piece of information is partly provided in the semester description document and a more detailed description of the exam was provided in the middle of semester, they still wish for having it earlier.

Action points/planlagte tiltag

(Action points skal formuleres i punktform og så de kan læses ude af kontekst (f.eks. skal det oplyses, hvilket modul hvert punkt relaterer til)

All the teachers in the next semester will be encouraged to provide a detailed plan of the exam as soon as possible and post it to the course moodle page.

The lecturers will be invited to find ways of ensuring that the students spend more time studying during the semester as a rather large fraction reported low number of hours studying. We have implemented mini-seminars and mini-projects throughout the semester to increase this index. Apparently, more emphasis on such activities may be needed.
